

## CF Moto Power Adapter

Thank you for purchasing XTC Power Products. Our Easy Install kits make us a leader in UTV electrical accessories.

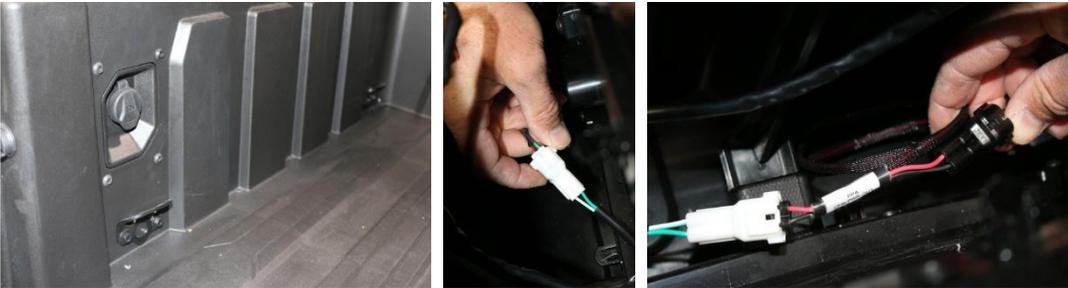

1. In Dash power Hook up – Unplug the AUX power connector under the dash, plug our adapter into it and then plug back into the power outlet. It goes inline.

2. Attach device. The red wire is positive, and the black is negative.

Bed Power – if your UTV has a 12vdc power out in the bed, this adapter can be used to power up a whip or license plate frame

1. Install Adapter- Remove the screws holding the top of the fender, push down and pull open enough to reach inside to the connector from the back of the outlet and plug the adapter in-line.

2. Attach Device. Run the wire to the device being powered. The Red is positive, and the black is negative.
